SUMMARY

I'm a creative and self-motivated professional, with 15 years of experience as a freelance musician prior to my software development career.

PROFESSIONAL EXPERIENCE

Handshake - *Contractor*

June 2023 - PRESENT

As part of a small team, I help maintain and develop Handshake's marketing website (https://joinhandshake.com). Originally hired to help migrate the site from Wordpress to Next.js, I developed methods to re-use existing code and accelerate that process vs. rebuilding pages from scratch. Now that the migration is complete, I've had the opportunity to work closely with the design team on the most high-profile and complex pages on the site.

Freelance Musician

2007 - PRESENT

Manage an ever-changing schedule, quickly learn new material with hard deadlines, communicate professionally and effectively in a team environment.

SKILLS

JavaScript (TypeScript), React, SQL, NodeJS, HTML, CSS, Tailwind, Git

Strong written & verbal communication

Creative problem solving

EDUCATION

Launch School

2021-2023

Software Engineering

Depaul University

2007 - 2011

Music Performance
